Brushed inner surface for next to skin comfort

Mesh outer layer expedites wicking

Made in the U.S.A. – Berry Compliant

NEW COLOR!
Now available in Tan 499

FF2

FWDfit® Layer II fabric is a 4.5 oz blend of polyester yarns. The inner surface of this midweight fabric is brushed for against-the-skin comfort and the mesh outer surface provides good breathability. This fabric is ideal in moderate weather conditions.

The shirt is constructed with set in sleeves and dropped shoulder seams to allow protection from gear and comfortable range of motion. The sturdy flat seam construction provides long lasting durability.

Our fabric's Microban® antimicrobial protection prevents odor and prolongs the life of the fabric. Its unique wicking properties provide for quick moisture evaporation and air drying.
