Flat seam construction eliminates chafing from gear

Inner surface brushed for comfort next to skin

Mesh outer layer expedites wicking

Made in the U.S.A. – Berry Compliant

NEW COLOR!

Now available in Tan 499

FF3

FWDfit® Layer III fabric is an 8.0 oz blend of polyester yarns. The inner surface of this active weight fabric is brushed for against-the-skin comfort and the mesh outer surface provides good breathability. This fabric is ideal for cold weather conditions.

The shirt is constructed with set in sleeves and dropped shoulder seams to allow protection from gear and comfortable range of motion. The sturdy flat seam construction provides long lasting durability.

Our fabric's Microban® antimicrobial protection prevents odor and prolongs the life of the fabric. Its unique wicking properties provide for quick moisture evaporation and air drying.

Berry Compliant
