NEW COLOR!

Now available in Tan 499

FR3

Fortiflame® Layer III fabric is a jersey knit blend of modacrylic/ rayon/nylon and spandex yarns at 7.8 oz./sq. yard. The fabric is inherently flame resistant and has "0" after flame or melt/drip during test method ASTM D 6413-11. The spandex blend provides the wearer with additional comfort and freedom of movement. Our fabric is soft against the skin, even while meeting these stringent standards. Fortiflame® Layer III fabric will keep the wearer dry from excessive moisture and is treated with Microban® anti-microbial to resist odors.

Berry Compliant
